

Cataloging Record Distribution Pilot Kick-Off

GPO is pleased to announce the kick-off of the Cataloging Record Distribution Pilot. Due to the overwhelming response from the FDLP community, GPO has expanded the pilot to include 49 libraries. Participating libraries will receive GPO bibliographic records distributed from GPO's Integrated Library System (ILS).

Visit the [Cataloging Record Distribution Pilot Web page](#) for more information on the project. An [informational FAQ page](#) about the details of the project and a list of all participating libraries is also available.
